

## Reading/Writing

- ◆ Read the paragraph and complete it with conjunctions from the list below.

and, but, although, because, before, after, while, until

After school Nadia and her sister went into the garden and looked at the flowers. The girls were happy because they loved their garden. They sometimes helped their grandmother in the garden, but today she had stayed at home. Their mother said they could stay in the garden, while it was time for dinner. They saw several colourful birds until they were in the garden. After they had been there for an hour, their mother told them it was time to come in. She told them to wash their hands before they sat down at the table. Although they were both very hungry. The girls did not want to leave the garden.
