

Reading / Writing

- ◆ Read the paragraph and answer the questions:

We live in a flat. Ours is a small family of four that consists of my father, mother, brother and I. Sometimes, our relatives and neighbours visit us.

We share many moments of fun and laughter every day. I spend much of my time in my father's library, reading books or seeing picture. I play indoor games with my mother. She often finds time to tell me stories. In the evenings, she helps me with my homework.

I have few pets a dog, a cat and a parrot. I spend a lot of time with them. I take care of them and give them their food.

I miss my father's company very much as he works long hours. He has to stay away from home almost the whole day. He comes home at 8:30 as his office is very far from our home. I love my brother and spent plenty of time with him as he is very young.

- ◆ Choose the pronouns and write below.
