Mathematical Development Week: 33 Topic: Number "29" Day: I		1	Class:	Nursery
Learning	Activity Plan/Methodology	Time:40	Assessment	Resources
Outcomes		minutes	of Learning	
	<b>Recap</b> : Students will be asked to reinforced numbers from 0 to 30 while reading them through flashcards.	5 mins		Flashcards
Upon the	We Are Learning to: Identify and count the number '29' through different objects.			
completion	What I am looking for: How well you identify and count the number '29' through different objects.		Students	
of this	Gained skill: It helps us to enhance our counting, cognitive and visual skills.		will be	
lesson,	Introduction: First write or paste the numbers I - 28 on the board and have everyone shout out the numbers		assessed on	
Students	as you write or show them. Allow the students' first look at the numbers pasted on the board and read			
will be	them out aloud. Show students different sets of objects in turn and ask them to count each set. For example,	5 mins		
able to:	show them 2 sets of 10 coloured pencils, ask 'How many coloured pencils are there?' and students should say			
	'20 coloured pencils'. Ask the students if we will add nine more coloured pencil, how many pencils will there.		ldentifying	
ldentify	Tell students that 2 tens and 9 units make number "29". Show "29" crayons, "29" pencils, or "29"		number	
number	popsicles. Show the flashcard and tell them today we will learn number "29". Ask students what number		<b>`29'</b> Relate	
'29'	comes after "28". Introduce Number "29" with flashcard, real objects, counting bars, small blocks, balls,		quantity	
Relate	spoons, ice-cream sticks and things from the classroom. Paste flashcard on the board and say number "29".		with the	
quantity	Have students count their steps to walk from one side of a room to the other), or have them jump up and		number	
with the	down "29" times, clap "29" times, tap head "29" times counting as they go. Show the number song			Coloured
number	https://youtu.be/WYJKL62BTTs			straws,
	Focused task:			bamboo
	Provide several large, colourful drinking straws, bamboo sticks and a playdough on each table. Ask students			stick,
	cut the straws in smaller pieces. Ask students this is fun counting with number "29". Ask students make a	25 mins		
	ball with playdough and insert the bamboo stick in the playdough, encourage students to slide the straws till			playdough
	number "29" over them, counting them as they work. Ask student count carefully one by one.			
	Ask students to open book pg. no 71. Ask them to move your finger on number <b>"29"</b> and say it aloud. Ask			Book pg. no
	them what is in the picture? Ask them we use candle for light, on birthday cake? Ask them count the			71
	candles by putting their finger one by one and tell the number.			
	Wrap up: Students will be asked to show "29" blocks / pencils / colours.	5 mins		
	Reflection:			

Mathemati	cal Development Week: 33 Topic: Number "29" Day: 2	Class: Nursery		
Learning	Activity Plan/Methodology	Time:40	Assessment	Resources
Outcomes		minutes	of Learning	
	Recap: Students will be asked to reinforced numbers from 0 to 30 while reading them through flashcards.	5 mins		Flashcards
Upon the	We Are Learning to: Identify and count the number '29' through different objects.			
completion	What I am looking for: How well you identify and count the number '29' through different objects.		Students	
of this	Cained skill: It helps us to enhance our counting, cognitive and visual skills.		will be	
lesson,	Introduction:		assessed on	
Students	Start by gathering the students in a circle and show them a large number "29" cutout or poster. Ask if anyone			
will be	knows what number it is. Encourage responses and praise their efforts. Explain that today, you will be learning	5 mins		
able to:	all about the number "29". Tell students numbers are everywhere! They're on clocks, computers, calendars,		ldentifying	
	and whiteboards! Tell students, Numbers are infinite. There is no end to numbers. Show "29" coloured pencils		number	
ldentify	and ask students how many coloured pencils you are holding now. If necessary, tell them there are "29"		<b>`29</b> " Relate	
number	coloured pencils. Ask the students to say "29" aloud as a group. Ask students to tap your table "29" times,		quantity	
<b>`29</b> ′	jump "29" times, clap "29" times, stamp your feet "29" times. Show the number "29" flashcards again and		with the	
Relate	write the number as large as possible on the board. Ask the students to trace the number in the air. Ask them		number	
quantity	"Make a two then a nine. This is way to make twenty nine "29". It is important that this is done using the			
with the	whole arm moving from the shoulder.			
number	Focused task:			
	Use simple number cards to teach students how to count from "I to 29". Begin by giving each student a set of	25 mins		Number
	number cards labeled with a number between I and "29". Students shuffle the cards and set them out face			flashcards
	up. Tell the class to arrange the cards in sequential order from the smallest number to the largest number			I to 29
	"29". Help your students succeed in this activity by guiding them along the way. When each student has the			
	cards in order, count from "I to 29" as a class.			
	Ask students to open book pg. no 72. Ask them there are 6 boys playing football. First boy has 4 footballs.			Book pg. no
	Draw 5 footballs with each boy and colour them. Bring them in a playground to play the football after the			72
	class. Ask them to count the footballs and tell how many footballs are there? Roam around in the class and			
	help students to complete the task.	_		
	Wrap up: Students will be asked to write number "29" in the air with their finger.	5 mins		
	Reflection:			
				Worksheet
	Homework: Do the worksheet.
